# EVANS' ASSAULT SHOULD BE LESSON TO THE AUTHORITIES

### ASSAULTER OF EVANS SHOULD BE PUNISHED TO THE FULL LIMIT

Umpire, If He Lives, Owes It to Himself and Baseball to Prosecute Vigorously—Fault Largely With Police Magistrates.

By THOMAS S. RICE.

At last an umpire has been dangerously wounded, if not killed, by one of those fools who think it a smart and praiseworthy thing to join with 300 or 400 other misfit human beings as cowardly as themselves and assault the directing official at a baseball game.

The victim of this last and most dastardly assault of the many that have been committed in the current season is the same to form the means to assault an umpire.

Evans' Duty to Prosecute.

He made such an excellent record for fairness, intelligent appreciation of the rules and ability to control men that he was tipped off to Ban Johnson, presihe was tipped off to Ban Johnson, president of the American League, who gave him a job as assistant umpire last sea-son. Since then he has been almost uniformly good in his work, and is ranked by critics in every city where he has appeared as one of the most promising and capable men who ever called a

Evans is a game fellow and a thorough sportsman from his soles up. The reports may be exaggerated, and he may recover from the attack made on him st St. Louis yesterday, in which case he may be strongly tempted to follow the usual course of other umpires who have been the victims of such attacks, and show a disinclination to prosecute the man who hit him. From this distance it would appear that if he takes that view he will himself be doing a rank injustice to every man who follows his calling for a livelihood. He owes it to himself, the hundreds of other umpires who bear the scars of dirty assaults, and to the great national game which has done so much for him, to prosecute the St. Louis rewdy to the full limit of the law. ports may be exaggerated, and he may

Severe Example Needed.

If Evans is chary about appearing against the man who struck him down, Ban Johnson owes it to the American League and the game in general to apply all possible means to compel the Harriman's great stable of show horses umpire to see that his duty to the league and the sport lies in having Dusenberg given the extreme penalty for his act. The St. Louis American club should co-operate with Evans, if he lives, and President Johnson in this case, and allow no false or foolish sentiment about Dusenberg being a home rocter interfere with a maniy attempt to crush out forever the dirty and contemptible practice of hundreds of men attacking a single umpire.

# AGAINST ROSEBEN

NEW YORK, Sept. 16.-James R. Keene will not race his two-year-old Keene will not race his two-year-old Colin against Dave Johnson's Roseben, The Washington management is taking a lively interest in the tremendous following amateur baseball has in this city, and will build a special dressing room under the grandstand for the benefit of the amateur diamond stars, and the football players, who may lease the grounds this fall. It is an excellent move. The amateurs have thousands of followers in this town, and Manager Cantillon shows a good head when he extends every favor possible to them. acording to his stable men. "Why should he?" asks Root. "Here we have a high class young horse, eligible for all next year's big stakes as a three-year-old. Defeating Roseben or even participating in a grueling race with the 'Big Train' might ruin him for good and all. You

might ruin him for good and sil. You can state positively that the race will not come off."

Johnson on Saturday told the Belmont Park stewards that he would like to have Roseben race Colin seven furlongs at the fall meeting for a special purse, saying he thought they would hang out a world's record. He wanted to bet \$10,600 his horse would win. Landford's wildness on Saturday in the first inning was not unexpected. A Washington newspaper man who saw him pitch many times in the South Carolina League, says he was always wild down there, but was none the less considered a most promising twirler. Cantillon was not at all discouraged over Landford's showing, and said this morning he had not the slightest intention of letting him out until the youngster has been thoroughly tried.

# CURES

HARRIMAN STABLE

PHILADELPHIA, Sept. 16.-J. W.

There is an evaporation from the body going on continually, day and night, through the pores and glands of the skin. This is nature's way of maintaining the proper temperature of our bodies and of preserving the softness and flexibility of the skin, and so long as the blood is free from impurities no trouble will result. When however, the blood, from any cause, becomes infected with humors and impurities these, too, must be expelled, and coming in contact with the delicate tissues and fibres with which the skin is so abundantly supplied they produce irritation and inflammation, and the effect is shown by Eczema, Acne, Tetter, pimples, rashes and skin troubles of various kinds. To effect a cure the blood must be cleansed and purified. This cannot be done with external applications, but requires constitutional treatment. S. S. S. is the best treatment for all skin diseases. It goes down into the circulation, neutralizes and removes the humors and acids and thoroughly cures skin affections of every kind. S. S. S. supplies the blood with the proper nutritive qualities so that the skin instead of being irritated and diseased by unhealthy hamors, is fed and sustained by cooling, healthy blood.
